Timely and accurate payroll processing is a basic requirement of every business. With CheckPoint HR's Human Resources Management Software platform, you will substantially streamline and automate your payroll processing and tax filing.

CheckPoint HR's flexible payroll processing handles hundreds of payroll-related computations with no need for side calculations or expensive programming. We can support a range of tax management capabilities, variable pay plans, including sales commission and piece-rate plans, and a variety of pay frequencies.

Online Payroll Report Access

Prior to completing your payroll, your pre-check register is available for viewing online. As soon as payroll processing is completed, dozens of standard and custom reports are instantly available. Payroll processing with CheckPoint HR also means seamless integration with your time and attendance system and General Ledger (GL).
