10.7.3 ENHANCEMENTS

- Implemented Head of Household Creditor garnishment check for states that allow for Head of Household exemptions. In these states, when an employee is designated as Head of Household, they are subject to additional exemptions, allowing them to retain more of their disposable income.
- Added an indicator to a reduced garnishment if the reduction was due to a Head of Household or CCPA rule. In addition to the '*', the reduced garnishment amount will show 'HOH' or 'CCPA', for Head of Household or Consumer Credit Protection Act, respectively.

-
- Increased the field length of the optional fields 'REMITTANCEID', 'FIPSCODE', 'APVENDORCODE' to 60.

10.7.2 ENHANCEMENTS

- Added additional transactional reporting functionality. The reports now include individual employee and vendor tabs with information specific to the individual or vendor.

10.7.1 ENHANCEMENTS

- Added transactional (historical) reporting based on posted paychecks. Reports include Employee Deductions by Vendor and Payments made to Vendors. These reports are output to Excel spreadsheets.
- Added a Vendor Summary page to the printed report.
- Moved all local configuration information to the database. This allows multiple installations to share configurations without manually copying files between installations.
- Added the ability to enter a flat dollar amount deduction.
- Added a Bankruptcy category to the mapping options. Garnishment Manager does NOT handle bankruptcies; this entry is simply a placeholder for Bankruptcy mappings.
- Added automatic setup of the required Sage HRMS Optional Fields. Any time a new company is added to the Company Mappings, the Optional Fields required by Garnishment Manager are added to the database.
- Added ability to import garnishments via the Garnishment Workbook, an Excel spreadsheet.
